12 LED lights provide excellent illumination of the sewing area

Semi-automatic threader for easy threading

Large selection of accessories to ensure successful sewing

Design

The BERNINA 570 QE and 530 models immediately impress with their simple, classic design. BERNINA believes elegant form should be combined with superior function to set new design standards. Whether you're sewing or quilting, modern aesthetics plus cutting-edge technology are integral to the B 570 QE and B 530.

B 530 with slide-on table

Quality

BERNINA products are manufactured exclusively from high-quality materials—inside and out. This ensures the highest level of durability and performance. The incomparable quality is evident in the precision of the sewing and quilting stitches as well as the exceptional ease with which the needle pierces thick fabrics.

Innovation

The B 570 QE and B 530 include cutting-edge features developed by a team of experts in Switzerland. They combine ingenious sewing applications and intuitive navigation to produce a machine that is simplicity itself. The BERNINA Stitch Regulator (standard with the B 570QE, optional with the B 530), designed to assist you in mastering free-motion stitching techniques with ease, is just one of the many BERNINA innovations.

Swiss Tradition

For decades, BERNINA has been passionately committed to developing the finest sewing and embroidery machines for creative people. Swiss precision is at the heart of every product we make. BERNINA—embodying Swiss tradition since 1893. BERNINA—made to create.

Exclusive! Total Stitch Control

The B 570 QE and B 530 provide an exclusive level of stitch control. Whether altering the stitch length (up to 5 mm), width (up to 5.5 mm) or needle position (up to 11) or even creating custom combinations, you'll appreciate the convenience of a machine that remembers the stitch details for you. The BERNINA Stitch Regulator (BSR) is designed to help you master free-motion techniques by keeping stitches consistent at variable sewing speeds. The BSR offers confidence for the beginner and additional assurance for the experienced quilter. The BSR comes standard with the B 570 QE and is an optional accessory for the B 530.

More Memory Options

Let your B 570 QE or B 530 keep track of the details with multiple memory functions. Both models remember the changes you make to the stitches as you use them in your sewing session. They will also remember your favorite stitch settings for each stitch when saved in the long-term memory. For creative applications, you can save up to 100 stitches in a combination.

Extensive Stitch Library

Depending on the model, the B 530 and B 570 QE offer up to 642 utility and decorative stitches, including an automatic buttonhole. Stitches can be selected via buttons and keys (B 530), or via the color touchscreen (B 570 QE).

Sew Simple!

The user-friendly software of the B 530 and B 570 QE allows you to navigate quickly and easily. The modern LCD screen or color touchscreen displays all your settings, and the Creative Consultant offers on-screen help and support. What's more, the semi-automatic threader makes threading the needle absolute child's play.

Greater Sewing Comfort

Unique to BERNINA, the Free Hand System (FHS) raises and lowers the presser foot while releasing thread tension and lowering the feed dog, leaving your hands free to guide your project. Also included is a practical extension table with ample space to hold your larger sewing projects.

Plenty of Room to Expand Your Creativity

The B 530 and B 570 QE were designed with your sewing future in mind. A variety of special accessories and presser feet are included with the machine. When you are ready to expand your options, you'll find a broad range of accessories available. Whatever new techniques you want to explore, you'll find the right accessories to help you to enhance your sewing and quilting skills.

The all-rounder for sewing, quilting and embroidery

The B 570 QE is a genuine all-rounder that can sew, quilt and embroider. The touchscreen makes changing from sewing to embroidery mode a breeze. There are 50 stock embroidery designs to choose from, and you can upload your own embroidery designs via a USB connection. The designs can be edited right on the touchscreen with the Rotate, Mirror, Rescale, and Color Change functions.
